### THE NEW COUNCIL.

Our prognostications last week proved to be at fault in so far as the extension of the tenure of office of the present members is concerned. It is already known that an extension to the first of December has been made. Surely it is not the intention of His Excellency to throw the elections (1) as late as December. The circular sent to the members is dated 29th June and runs as follows:—“The present Legislative Council will expire on the 30th instant, and it is my intention shortly to take measures for the creation of a new one. As, however, it is desirable that the Colony should not be left, even for the shortest period, without a Legislature, I should feel much obliged if you will allow me to prolong your appointment as a Member of the Legislative Council until the first of December next.” Zealous Confederationists may possibly be disposed to extract a certain amount of comfort from the solicitude of the Governor to avoid leaving the colony, even for the shortest period, without a Legislature. They will, perhaps, argue, and not without some show of reason, that His Excellency's instructions are to keep the Legislature alive so as to be in readiness for any action that may be necessary, should Her Majesty's Government decide to transfer us during the present year. It may be said, in opposition to this view, that the present Council is not exactly the one to legislate British Columbia into the Dominion, inasmuch as a large majority of its members are to a change which they freely confess would be productive of great good to British Columbia, but which would endanger their “bread and butter.” It must be remembered, however, that should Her Majesty's Government decide upon the change, the official members of the Council would, as a matter of course, do as they were bid. It was thumbs down, on Confederation last Session because Simon said “Thumbs down.” But if Simon says “Thumbs up,” up the official thumbs must go. Whether or not ardent advocates of immediate Confederation are justified in adopting this view we would not venture to say. Governor Seymour's unique diplomatic papers have puzzled more astute brains than ours before now, and those who build least upon them will be least liable to disappointment. Yet, when the farcical nature of the Legislature is borne in mind, it would appear little else than irony to say that it is desirable that the Colony should not be left, even for the shortest period, without it, unless in view of some special emergency, such as that already hinted at. Passing on from what cannot be more than mere speculation to a subject that greatly concerns every Colonist on “the Pacific slope,” we may be permitted to indulge the hope that when His Excellency does “take measures for the creation of a new” Council these measures will have a somewhat more liberal and enlightened basis than that upon which the present farcical structure rests. Since writing his celebrated Paris letter, Governor Seymour has added somewhat to his stock of British Columbia experience; and we think that his notions about the reconstruction of a Legislative Council for this Colony must have undergone considerable change. The Council constituted upon his own model has now had a fair trial, and we sincerely trust that no diplomatic art will be employed to persuade the Imperial authorities that it has come up to the expectations of the Colonists, much less has it reached the high

standard marked out for it by the head of the Government. We say, it has had a fair trial; and we unhesitatingly say it has signally failed. It is simply absurd to expect that a Legislature of which two-thirds are paid Government officers, should enjoy the confidence of the people to whom they are in no way responsible. Let the official members be ever so independent and conscientious in their votes upon all non-Government measures, the public cannot be made to believe it. They are always exposed to the disagreeable suspicion of voting in violation of both judgment and conscience. In fact it is no greater wrong to the people than it is to these gentlemen themselves, to place them in such a disagreeable and false position; and it would be alike in the interest of both that the curtain should at once drop upon the political pantomime. It would be difficult to conceive of a system better calculated than the present to beget a feeling of distrust and bring the officials into bad odor with the taxpayers. It teaches the colonists to regard them as a sort of vulture let loose to prey upon the body-politic. That such has been the unhappy tendency of the existing system of legislation there is the most painful evidence on every side; and we have a right to expect that an experiment which has been found so productive of evil, and so barren of practical good will not be repeated in this Colony at least. We may as well tell His Excellency plainly that to attempt such a thing would be as much as his popularity is worth in British Columbia.

## MISCELLANEOUS INTELLIGENCE.

The Members of the Masonic Order, sixty in number, partook of a dinner at Barkerville, on St. John's day.

## THE CELEBRATION.

The Celebration on Saturday, the anniversary of the Independence of the United States, was alike creditable to the American residents, and to the community generally. The day was ushered in by a salute of thirteen guns, representing the thirteen original States. The weather was charmingly fine, and the sports, including horse races, foot races, boat races, canoe races, sack races, wheelbarrow races, with the usual athletic games, went off in excellent style. Considerations of space forbid a detailed report of results. To the dinner in the evening upwards of forty gentlemen sat down, including many British subjects, amongst whom were the President of the Municipal Council, two members of the Legislative Council, the Chief Engineer of the Fire Department and several members of the Civil Service. Mr. W. R. Lewis occupied the Chair, and Mr. S. W. Herzig the Vice-Chair. After partaking of a really recheche dinner, provided by Messrs. Greley &amp; Arnaud, of the Colonial Hotel, the following toasts were given:—

The President of the United States. The Queen and the Royal Family.

The Governor. The Land we live in.—Responded to by the Hon. F. J. Barnard, M.L.C. The Dominion of Canada.—Responded to by the Hon. J. Robson, M.L.C.

Trade and Commerce.—Responded to by H. Holbrook, Esq., President, Municipal Council.

The President and Members of the Municipal Council.—Responded to by H. Holbrook, Esq., President.

The American Residents.—Responded to by the Chairman and Vice Chairman.

The Ladies.—Responded to by Wm. Fisher, Esq.

These were followed by a number of volunteer toasts and sentiments, and the party broke up in good order, shortly after 11 o'clock, everyone well pleased with "the day and all who honor it."

## NOVA SCOTIA GOLD MINES.

The Halifax Express says:—We have just been shown by Mr. W. T. Townshend, two bars of gold, weighing 90 ounces, the work of ten men for six weeks at Tangier, the yield being equal to 3 ounces per ton of quartz. The total cost was about \$1,200, the value of the gold being nearly \$1800, thus leaving a clear profit of \$600, after paying all expenses. The Diggings at Tangier are now doing well, though last summer they were all but totally abandoned as unprofitable. The DeLery Gold Mining Company have extracted the following quantities of gold from the River Gilbert since the month of January last:—In January, 64 ozs. 1 dwt. 4 grs.; February, 18 ozs. 16 dwts. 8 grs.; and in March, 57 ozs. 3 dwts. 11 grs.; total, 303 ozs. and 28 grs.

PREMONITION OF DEATH.—On Palm Sunday—two days before his assassination—Mr. McGee, of Canada, had an uncomfortable dream during an afternoon nap. On returning to the family circle, he remarked that he felt somewhat annoyed by a singular dream. Upon the ladies asking him to repeat it he said:—"I dreamt that I was standing by the Falls of Niagara and saw a boat containing two men sailing down the rapids and approaching the brink of the cataract. Seeing their danger and apparent ignorance of it, I rushed forward to warn them. The boat turned round and proceeded up the rapids and I went over into the gulf beneath." The dream derives peculiar significance from what may, perhaps, be considered its speedy and bloody fulfillment. May not the fearful cataract be taken to represent the Fenian plot, the two men in the boat, Canada, gliding on unconsciously on the very brink of a fearful massacre, but warned and saved by the sacrifice of Mr. McGee, who would certainly appear to have been the instrument used in "stamping out" Fenianism in Canada.

CAPE BRETON COAL COMPANY.—A number of influential gentlemen from Nova Scotia were about to have an interview with the Minister of Finance for the Dominion of Canada, with the object of presenting and supporting a petition from the Intercolonial Coal Mining Company of Cape Breton, on the subject of a railway. It appears the company owns extensive and valuable beds on the island, twelve or fourteen miles from Sydney, to which fine harbour they desire to construct a railway. The Dominion Government is asked to guarantee the interest of a loan of \$400,000 at six per cent. With this railway it is claimed the company can lay down coal at Sydney at \$1.50 to \$1.75 per ton. The petition bears the signatures of all the Clergymen and leading men of Cape Breton, and no fewer than 1300 tax-payers.

MORE ABOUT THE ACCIDENT.—Capt. Irving informs us that he is disposed to regard, as the immediate cause of the accident on Friday, the recent formation of a sand bar a little above the Sisters. This bar has been formed from the tailings deposited by Chinese engaged in sluicing on the flat opposite. A few weeks ago Capt. Irving drew the attention of the Magistrate at Yale to the obstruction thus created and its probable consequences. The Magistrate promised to attend to the matter, but does not appear to have done so.

FROM YALE.—The str. Reliance, Capt. Irving, arrived from Yale on Monday, bringing a number of passengers and Barnard's Cariboo Express. The good people of Yale would indeed appear to have been enjoying themselves in celebrating the 1st and 4th of July. Much of the local paper is occupied with an account of their doings on these, the two great national days of America. The report of the proceedings at the Dominion Dinner concludes thus:—"Among the volunteer toasts was one to the Hon. A. N. Birch—our next Governor, which was unanimously responded to, after which three lung-splitting cheers were given for that very popular gentleman." The examination of the Yale Public School took place on Friday. It was, according to the Examiner, a most satisfactory and successful affair.

ESCAPE AND CAPTURE.—The Indian recently convicted of robbing Mr. Eickhoff's till and attempting to set fire to his premises, effected his escape from Jail in a very artful way, a few days ago. He was captured on Monday last under the following circumstances:—Mr. George Bennett, having occasion to go below Mr. Digkinson's slaughter-house after some weights which fell down, espied Mr. Indian skulking under the building. When the rascal saw that he was recognized he made for his gun, but before he reached it he was in Mr. Bennett's powerful grasp, brought to ground by a severe blow, and handed over to the authorities. The fellow had a comfortable fair formed of shavings and straw, and was armed with a gun and a bow and very formidable looking arrows, evidently with a view to offering a stout resistance. He has the reputation of being a very bad Indian, and it is most fortunate that he has been secured before committing further depredations.

Our readers have observed that we rarely praise patent medicines, and that we advertise only the very best of them. But now, the remarkable recovery of Mrs. Rice, of Canada, from her distressing and almost helpless scrofulous disease, which is known throughout the community, and unquestionably the effect of Ayer's Sarsaparilla, leads us to publish, without reserve, the remarkable efficacy of this medicine. We do this in the interest of the afflicted. Any remedy which can so effectually raise one from the dead; "should be universally known; and we wish it may be universally as successful as it has been in the case of Mrs. Rice.—Daily Journal, Syracuse.

FROM VICTORIA.—The str. Enterprise arrived from Victoria last evening, commanded by Capt. Swanson, to whom a very enthusiastic reception was accorded, this being his first visit since his severe and protracted illness. The ringing of bells, firing of cannon and music of the brass band, told how popular Captain Swanson has made himself; and we, in common with our fellow-citizens, congratulate him upon his recovery and return to the deck of the fine steamer under his command. The Enterprise brought a number of passengers, and a good freight.

LIFE, SPEECHES AND WRITINGS OF MR. MCGEE.—Arrangements have been made to publish, for the benefit of the family, the lectures, speeches and writings of the late D'Arcy McGee. This interesting work will, it is understood, be accompanied by a memoir of Mr. McGee's life, founded upon authentic data, and such historical notes as will connect in consecutive form the different pieces. It is also understood that arrangements have been made, by one of the most eminent publishers, for publishing a novel by Mr. McGee, the last sheets of which were only completed a few days before his death.

MORE CONVICTS.—The two Indians recently convicted of murdering a Chinaman near Lillooet, were brought down in irons, on Monday, and initiated into the Chain-gang. Along with these convicts was brought a Chinese lunatic, also in irons.

ARRIVAL OF TREASURE.—Barnard's Express arrived by the Reliance, on Monday, with \$80,000 in treasure, in charge of Mr. John Murray. Of the treasure \$75,000 belongs to the Banks.

GOING HOME.—Amongst the passengers who came down by the Reliance we observed Mr. Wm. Anderson, for several years a prominent farmer and stock-raiser in the Lake LeHach district. Mr. Anderson has just sold his farm to Mr. P. Gannon, formerly of this city for the sum of \$8500, and is now on his way to Canada. He has just been as far up as Williams creek, and is strongly impressed with the prosperous and promising appearance of things.

A MOVE IN THE RIGHT DIRECTION.—We are always pleased to be able to chronicle any improvements or changes for the better in this thriving little city of ours. We have just heard of the amalgamation of two well-known Houses here viz. Messrs. Clute and Clarkson, who have entered into a Co-partnership, and are now prepared to furnish every description of Goods in the Dry Goods, Clothing, Boots, shoes, Grocery and Stationery lines, at very reasonable prices. We bespeak for them the liberal support of a discriminating public.

GODEY FOR JULY has been laid on our table by Messrs. Clute &amp; Clarkson. This popular book appears to improve with age. The fashion plates in the present number are more than ordinarily extensive and attractive. Certainly the trifles that it costs is well spent upon the lively and ever fresh Monthly.

EXPECTED.—We hear that H. M. Ship Scott will pay a visit on or about the 12th inst.

NEW MILL.—Mr. Scott, of Lillooet, is erecting a very large and complete grist mill at Clinton.

## TELEGRAPHIC SUMMARY.

The European news is to the 2d inst. The debate in the House of Lords, on the Irish Church Appropriations bill, continued till 3 o'clock on the morning of the 30th ult. The Prince of Wales and Prince Alfred were present. Earl Russell said the Irish Church had failed to accomplish the objects of its existence, and the terms of the Act under which it was kept.

At three o'clock a division took place, and the bill was rejected by a vote of 17 against 92. The announcement of the result was greeted with cheers by the Yery Loys. The Scotch Reform bill passed a second reading in the Lords. General Napier arrived in England on the 2d inst. An immense crowd assembled at the railway depot to welcome him and the greatest enthusiasm was manifested. The House of Commons unanimously adopted a vote of thanks to the General and officers of the Expedition. The Prince of Wales, Prince Alfred, and many members of the Court were present, and all the galleries were crowded by a brilliant throng. It being known that Gen. Napier would be present, the General was greeted with much warmth. Disraeli moved, and Gladstone seconded the vote of thanks.

In the Corps Legislatif, on the 2d, in the course of debate on the Budget, the Minister of Finance said arrangements for disarmament were equally a pledge of peace. Olivier said nations are led to arm themselves through fear of France, which held the lead among the nations of Europe. She can dispense with a costly armament and improve her financial condition.

The National Chamber of Serbia has confirmed the accession of Milan IV. to the throne. Mazatlan dates of June 22d report that port blockaded by H.B.M. steamship Chanticleer. The Captain and Purser of the vessel had been grossly insulted by Custom House authorities. Captain Bridges demanded an apology for the insult, which was refused. He then blockaded the port and gave notice that if the apology was not made within twenty-four hours he would bombard the town. At the earnest solicitation of the foreign residents, Capt. Bridges consented to forego the execution of his threat until he could communicate with the English Admiral of the Pacific fleet. Business will be generally suspended.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful. Cuts, bruises, sprains and swellings, are so common, and certain to occur in every day's life, that a bottle of this Liniment is the best investment that can be made. It is more certain than the doctor—it saves time in sending the doctor, and it is cheaper than the doctor, and should never be dispensed with.

I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for sprains, cuts, scratches, or chills on horses. Our men have used it for Cuts, Bruises, Sprains, Rheumatism, &amp;c., and all sorts of aches and pains. W. W. HARRIS, Boston, Mass., Aug. 1, 1893.

Quicker and sure it certainly is. All genuine is wrapped in silver plate carrying, bearing the signature of G. W. Westwood, Chemist, and the PATENT U. S. stamp of Westwood's Co., over the top. ADDRESS TO THE NERVOUS AND DEBILITATED, WHOSE SUFFERINGS HAVE BEEN PROTRACTED, AND WHOSE CASES REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

If you are suffering have suffered, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or floccy, or is itropy on setting? Or does a thick seam rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspnea? Are your bowels constipated? Do you have spells of fainting or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, or of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy society as well? Do you pursue your business with the same energy? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite and you attribute this to dyspepsia or liver complaint?

NOW, READER,

DISEASES BADLY CURED, AND EXCESSES.

Are capable of producing a weakness of the generative organs. The organs of generation when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks, or any other meanness about them. I do not mean those who keep the organs inflamed by running into excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other form of disease—idiotcy, lunacy, paralysis, spinal affections, suicide, and almost every other disease which humanity is heir to, and the real cause of the trouble never suspected, and have died for all but the right one?

Diseases of this sort require a Diuretic.

**CURE IS AT HAND!**  
**HOLLOWAY'S OINTMENT**  
Scorbutic Eruptions, as Sore Heads and  
Scrofulous Swellings.  
If this powerful Ointment be well rubbed into the parts  
affected, all skin disease will be speedily cured. It  
acts by purifying the blood, and restoring the system  
to its normal state. It enters the system as it enters  
the pores, and operates on the blood, and the blood  
constitutively purifying the system, and affecting a radical  
and complete cure. The Pills should be taken as an auxiliary  
to the Ointment, as they are so prepared as to act in uni-  
son with it, facilitating and confirming the conquest of  
the disease.

**Diphtheria, Ulcerated Sore Throat and  
Glandular Swellings.**  
The above complaints have for twenty years been  
cured by Holloway's Ointment and Pills with com-  
plete success. The Ointment has been so remarkable,  
speedy and numerous, that these often fatal diseases are  
more easily cured by these medicines, than even the com-  
mon sore throat, if taken in time.

**The Kidneys, Stone and Gravel.**  
In these complaints, the Ointment almost acts like a  
charm, providing it is very effectually rubbed over the  
region of the kidneys, which is the seat of the disease.  
Almost immediate relief, while the Pills should be taken  
according to the printed directions, when the most extra-  
ordinary cures may be effected by this means.

**Bad Legs, Bad Breasts, Scrofulous Sores,  
and Glandular Swellings.**  
In such cases the Ointment operates surely and with a  
rapidity that resembles magic. It should be rubbed into  
the parts affected, after they have been cleansed with  
lukewarm water. The purifying and curative powers of  
this marvellous ointment have been proved in all cases  
of bad legs, ulcers, and sores, and in cases of  
glandular swellings, or milk fever, its action is wonderful.  
Glandular swellings may soon be reduced by following the  
printed directions.

**The Action of the Heart. Dropsy.**  
The last named disease is commonly preceded by irregu-  
larity of the heart, and difficult respiration; which  
symptoms are always severe, and ever go from bad to  
worse, unless proper means of cure are resorted to. In  
Holloway's Ointment and Pills the dropsy is cured  
patiently and ever find success; the present relief derived  
from the use of these remedies is marvellously quick, and  
perseverance in the application of this famous Ointment,  
invariably results in a cure. They act with such energy  
on the circulation and absorbent system, that the dropsy  
and fluid accumulations, which are the cause of the  
symptoms, daily decline, till natural health is restored.

**Gout and Rheumatism.**  
May be cured with the greatest certainty if large quan-  
tities of the Ointment be well worked into the complain-  
ing parts, and this perseveringly done for some time. It  
is no use to smear it on the skin only, it must be got into  
the system. Take as many Pills nightly as will act two  
or three times during the 24 hours; chew the pills at the  
rate of leaving the system, the violence of the complaint  
frequently seems to increase.

**Indiscretion of Youth.**  
Sore, almost uncurable, can with certainty be cured  
if the Ointment be thoroughly rubbed all round the com-  
plaining parts twice or three a day, keeping them cov-  
ered with linen till the spread of the disease.

The Pills must be taken according to the printed di-  
rections. The blood, being in an impure state, perseverance  
is necessary. From humane motives letters of ad-  
vice will be answered gratuitously. To save carriage the  
Pills should be obtained in the neighborhood of the suf-  
ferer, and sent from Holloway's Establishment.

Both the Ointment and Pills should be used in  
the following cases:—  
Bad Legs, Chapped hands, Scalds,  
Bad Breasts, Cold feet, Sore Throats,  
Bumps, Stiff Joints, Skin-diseases,  
Bunions, Elephantiasis, Scars,  
Bites of Noxious Animals, Scabs,  
and Sand-Flies, Gout, Sore-heads,  
Coccy-bay, Glandular Swellings,  
Clumsy, Ulcers, Tumors,  
Corns (soft), Lambs, Wounds,  
Cantharis, Rheumatism, Yaws,  
Chilblains.

Sold at the establishment of **PROFESSOR HOLLOWAY**, 224,

able Druggists and Dealers in Medicines throughout the
